SUMMARY

Final-year Computer Science student specializing in Software Development with strong foundations in Data Structures & Algorithms, Object-Oriented Programming (OOP), and Full-Stack Engineering using Java, Python, and JavaScript. Experienced in building scalable web architectures with MERN Stack and ASP.NET Core, designing secure REST APIs, and integrating Microsoft Azure cloud and AI services. Proven track record of developing and deploying live production applications tested with 100+ users, backed by 150+ solved algorithmic challenges across LeetCode and GeeksforGeeks.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C, C#, JavaScript
- **Frameworks & Technologies:** MERN Stack, React.js, Node.js, Express.js, .NET, ASP.NET Core
- **Web Development:** HTML, CSS, REST APIs, API Integration, Full-Stack Development
- **Databases:** MySQL, MongoDB, SQL
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC, DBMS
- **Cloud & AI:** Microsoft Azure, Azure AI, Cloud Deployment, AI Integration
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Thunder Client, MongoDB Atlas
- **Development Practices:** Authentication, Backend Development, Database Integration, Software Testing, Application Deployment

EDUCATION

- **Bachelor Of Technology with Specialization of Computer Science and Engineering | (2023- 2027)**
R.R. Institute Of Modern Technology, Lucknow (AKTU)
CGPA- 8.00 (till sem VI)
- **Intermediate (XII) | (2022-2023)**
A.B.S International School (CBSE)
Percentage- 83.4 %
- **High School (X) | (2020-2021)**
A.B.S International School (CBSE)
Percentage- 94.6 %

PROJECTS

CareerForgeAI – All In One AI Tools Platform | April 2026 – Present

- **Role/Tech:** Full Stack Developer | React (Vite), Node.js, Express.js, MongoDB Atlas, REST APIs, Vercel, Render
- **Link :** [career-forage-olive.vercel.app](#)
- Architected an all-in-one AI career ecosystem featuring a Resume Builder, ATS Analyzer, AI Resume Writer, Portfolio Generator, and Career Roadmap modules.
- Integrated AI APIs to automate skill-gap analysis, ATS score optimization, dynamic resume generation, and personalized interview preparation workflows.
- Engineered secure backend services using JWT authentication, protected client-side routing, and session management to safeguard user data.
- Designed optimized MongoDB schemas with efficient indexing and RESTful CRUD endpoints for fast profile data retrieval and error handling.
- Developed modular, reusable React UI components and established automated CI/CD pipelines deploying the frontend on Vercel and the backend on Render.

Abhyas AI – Online Testing & Practice Platform (Group Project) | June 2026 – Present

- **Role/Tech:** Frontend Lead & API Integration | React (Vite), Node.js, Express.js, MongoDB Atlas, Azure AI, ExcelJS
- **Link:** [abhyasai.app](#)
- Led frontend architecture and UI workflows for a live assessment platform deployed on a custom production domain (abhyasai.app), successfully validating it across 100+ student test sessions.
- Engineered a secure, lockdown test environment featuring camera/audio proctoring alongside strict client-side event listeners preventing tab switching, right-clicking, and copy-pasting.
- Integrated Azure AI endpoints to automate student performance evaluation, delivering instant diagnostic breakdowns and personalized scoring insights.
- Managed complete frontend-backend API integration, implementing JWT authentication, Google OAuth, and email OTP verification for secure candidate session handling.
- Conducted API testing, debugging, and client-side optimization to ensure low-latency test rendering and integrated ExcelJS for bulk question imports and dynamic report exports.

ACHIEVEMENTS

- Solved 150+ Data Structures & Algorithms and programming problems across LeetCode, GeeksforGeeks, and HackerRank.
- Awarded Best Performer in Advanced MERN Stack Training conducted by Edrealms.
- Runner-Up in the College Based Hackathon

CERTIFICATIONS

- Advanced MERN and DSA with Java (BEST PERFORMER) - Edrealms
- Full Stack MERN Development - Apna College
- Intermediate Data Structure and Algorithm using Java - Trainx
